About Splenor Starch

Splenor Starch Limited is a specialty starch solutions company situated in Wankaner, Gujarat. We convert what seems like an everyday material — starch — into products that find application across paper, food, oil drilling, textiles, pharmaceuticals and adhesives, to name a few. As a global enterprise, our presence spans more than 44 countries where we export our products.

Our Mission

Best-quality, world-class products that help customers realise their dreams, with cost-effective solutions for our clients and society.

Our Vision

Continuously improving product quality and customer delight, with exceptional sales and support that brings pride and joy.

Our Approach

Customers come first. We meet expectations on quality, value for money and delivery in everything we do.

Our Core Values

● **Quality**

Delivering superior, world-class starches with consistent, certified quality, batch after batch.

● **Trust**

Trust is hard to gain and easy to lose; we protect every customer relationship we build.

● **Innovation**

We constantly implement new ideas and improve our existing products and methods.

● **Customer-Centric**

We satisfy customer expectations on quality, value for money and delivery — every time.

● **Sustainability**

We balance environmental, social and financial responsibility for ongoing, ethical success.

● **Diversity & Freedom**

A diverse, inclusive team produces stronger ideas and deeper customer engagement.

Infrastructure & Global Reach

With the latest modern technology and world-class infrastructure, we are committed to providing the best quality. Our plant in Wankaner, Gujarat is well connected by road, rail and air, and sits close to major business hubs and India's largest ports.

Industries We Serve

Our modified starches are engineered for performance across a broad range of industries. A few of the key application areas we serve:

■ **Paper & Board**

■ **Corrugation & Packaging**

■ **Textile**

■ **Construction & Gypsum Board**

■ **Adhesive & Binder**

■ **Pharmaceuticals**

■ **Foundry & Metal**

Product List

FOOD / INDUSTRIAL GRADE NATIVE STARCHES

- | | | |
|---|--------------------|---------------------------------|
| 1 | SPLEN MAIZE | Maize starch for general use. |
| 2 | SPLEN TAP | Tapioca starch for general use. |

PHARMACEUTICAL GRADE STARCH

- | | | |
|---|--------------------|--|
| 3 | SPLEN PHARM | Filler in pills & capsules; tablet binder and disintegrating agent in dispersible tablets. |
|---|--------------------|--|

PAPER GRADE STARCHES

- | | | |
|----|---------------------|---|
| 4 | SPLEN SPRAY | Wet-end additive for improving paper physicals. |
| 5 | SPLEN OX | Oxidized starch for sizing of paper. |
| 6 | SPLENOX 200 | Low-viscosity specialty starch for kraft paper — higher GPL and better operations. |
| 7 | SPLENOX 400 | Medium-viscosity, cost-effective starch to increase strength for kraft paper. |
| 8 | SPLENOX 500 | High-viscosity specialty starch for kraft paper (low GPL & low BF). |
| 9 | SPLENOX 800 | High-viscosity starch for duplex paper — higher pasting and stability. |
| 10 | SPLENOX 850 | Very low-viscosity starch for duplex paper — deeper penetration & higher GPL. |
| 11 | SPLENOX 1300 | Tapioca-based very low-viscosity starch for duplex paper — deeper penetration & higher GPL. |
| 12 | SPLENOX 1500 | Tapioca-based medium-viscosity, cost-effective starch to increase strength for kraft paper. |
| 13 | SPLENOX 1700 | Tapioca-based high-viscosity starch for duplex paper — higher pasting and stability. |
| 14 | SPLEN CAT | Wet-end cationic starch for improved paper quality and physical operations. |

Product List

PAPER GRADE STARCHES (cont.)

- | | | |
|-----------|----------------------|--|
| 15 | SPLEN CAT 400 | Amphoteric wet-end starch for runnability (low DS). |
| 16 | SPLEN CAT 450 | Tapioca-based amphoteric wet-end starch for runnability (high DS). |
| 17 | SPLEN BOND | Enhances IGT printability and ply-bond to paper. |
| 18 | SPLEN BOND 75 | Low gel-temperature starch for specific paper applications. |

TEXTILE GRADE STARCHES

- | | | |
|-----------|---------------------|--|
| 19 | SPLEN TBS | Thin-boiling starch for sizing and finishing applications. |
| 20 | SPLEN SHOT | One-shot sizing solution for sizing bottoms and denims. |
| 21 | BRITISH GUM | Better adhesives and shine with fast-drying property. |
| 22 | SPLEN TEX LV | Low-viscosity specialty starch. |

GYPHUM BOARD GRADE STARCHES

- | | | |
|-----------|---------------------|--|
| 23 | SPLEN GYP | Major binding agent in gypsum / plaster board. |
| 24 | SPLEN GYP LV | Specialty starch for gypsum board (low viscosity). |

CORRUGATION GRADE STARCHES

- | | | |
|-----------|-----------------------------------|---|
| 25 | SPLEN CG (Corrugation Gum) | Binding agent for the corrugation industry. |
| 26 | SPLEN PG (Pasting Gum) | Binding agent for the corrugation industry. |
| 27 | SPLENDEX TUBE | One-shot sizing for tubes & cores. |
| 28 | SPLENDEX CONE | One-shot sizing solution for paper cones. |

OTHER GRADE STARCHES

29	SPLENDEX W	White dextrin for various industries.
30	SPLENDEX Y	Yellow dextrin for various industries (adhesives, foundry).
31	SPLEN GEL	Pre-gelatinised starch for food, moulding, oil drilling, mosquito coil & others.
32	SPLEN FYD	Customized specialty starch for foundry and metal industry.
33	SPLEN CMS	Specialty starch for pharmaceuticals, textiles, paper-making and adhesives.
